2015 Degree Partnership Program (DPP) Summit Collegiate Updates

ACHIEVE YOUR DREAMS. START AT LANE!
**Natural Beauty, Recreation, and Cultural Offerings**

Lane Community College is located in Eugene, Oregon, a college town that is also home to the University of Oregon and Northwest Christian University. Eugene, situated in the beautiful, mild climate of the Willamette River Valley, is just 90 minutes from the Pacific Ocean, the ski slopes of the Cascade Mountains, and Portland, Oregon's largest metropolitan area. Rated as one of America's most livable cities, Eugene is rich in natural beauty and is a friendly, safe, and diverse community.

- A fun metropolitan atmosphere with local entertainment, tax-free shopping, abundant live music, theater, and art.
- Easy public transportation, including an extensive bus system, Amtrak train services, and a local airport.
- Recreational opportunities include skiing, snowboarding, bicycling, running, walking, fishing, hiking, and water sports.

---

  1. Business
  2. Engineering
  3. Aviation

---

*“Lane Community College offers great opportunities for international students. Everyone treats you really nicely and the academic part is excellent!”*  
- Enrique Gomez, Colombia
2+2 TRANSFER PROGRAMS

More than 92,000 international students and more than 45% of American students study at a community college on their way to receiving a university degree. In the United States, nearly all bachelor's degrees (also called 4-year degrees or undergraduate degrees) require a general education curriculum during the first two years of study. Both universities and community colleges offer general education classes to meet these requirements. This means that you will spend two years at a community college meeting the general education requirements, plus two years at a university completing the major-specific requirements.

Schools our students have transferred to:
- University of Oregon
- Oregon State University
- Portland State University
- University of Washington
- Stanford University
- University of Southern California
- Montana State University - Bozeman
- University of Wisconsin
- Texas A&M University
- Georgetown University

"Going to Lane Community College before transferring to the University of Oregon was one of the best decisions I've ever made. As long as I've been here, I've gotten a lot of help from the enthusiastic teaching staff. It's the good academic environment at Lane that gives me opportunities to open my mind about the world and to be as confident as I am today."

-Chau Nguyen

2+2 TRANSFER PROGRAMS

Benefits of attending Lane and then transferring:
- Small classes taught by nationally-recognized faculty. Students are never taught by teaching assistants.
- International Academic Advisors dedicated to helping you plan your transfer path.
- Cost savings averaging $20,000 per year compared to attending our transfer partners.
- An additional year of work in the USA on Optional Practical Training after your Lane degree and your transfer degree.
- While attending Lane, students have the opportunity to concurrently enroll at the University of Oregon.

2+2 = 4
2 YEARS AT LANE + 2 AT THE UNIVERSITY OF YOUR CHOICE = 4 YEAR DEGREE!
INTERNATIONAL ENGLISH PROGRAM

High-Quality, Accredited, and Innovative Programs and Offerings

Lane's International English Program offers students from around the world the opportunity to improve their English while on a college campus, where they can access clubs and activities and get to know American college students! There are five levels in the English Program. Upon completion, the top students are admitted to the credit program without a placement test, TOEFL, or IELTS score. There are four sessions per year, lasting 11 weeks each. Visit lanec.edu/international/international-esl-program to learn more.

The teachers have time for you. When you don’t understand something, they go out of their way to help you understand. They don’t give up on you. They are kind and open-minded. They are friendly. The teachers are here for the students. LCC has lots of diversity.

CAREER AND TECHNICAL PROGRAMS

Some career fields do not require a bachelor's degree, but instead a certificate or licensure. Lane offers international students access to cutting-edge career programs that lead to degrees, certificates, and licensure options. The programs come with national, and sometimes international, certification and awards. One advantage at Lane is that all of these programs have an internship component which will enhance your résumé and make you more competitive for jobs when you reach Optional Practical Training or return home to search for a new job.

Flight Technology & Pilot Training
- Associate of Applied Science (AAS) Flight Technology degree
- Associate of Applied Science Oregon Transfer (AAOT) transferable to any four-year college or university.
- Private, Professional, Commercial, and Instrument Pilot Courses

Lane Student Housing
Titan Court is like a home away from home. Each apartment is fully furnished and has a look that is bright, airy, and colorful. Amenities include a flat screen TV in the living room, a desk in every bedroom, fully equipped kitchens, and high-tech laundry rooms on each floor. All utilities are paid, including cable and Wi-Fi. Titan Court is located downtown and across the street from Eugene’s main transit station. The apartments are just a short walk away from a grocery store, shops, restaurants, and downtown hot spots.

International Programs Support
International Programs staff speak English, Korean, Japanese, Vietnamese, French, and Polish and work together to serve more than 250 international students from 30 countries. From orientation and arrival assistance to weekly “Coffee Talk,” our staff is here to assist you. To find all of the services offered, visit lanecc.edu/international/.

Student Life
Get involved. Life outside of the classroom is important! Student Life (Building 1) and International Programs (Building 11) offer a variety of clubs, social hours, and activities to provide opportunities for international and American students to get to know each other! For a full list, visit lanecc.edu/international/studentlife/.

Live downtown at Titan Court!
Lane offers fully furnished student apartments with all utilities paid. Visit lanecc.edu/international/housing to learn more.
New Partnerships Office on the Albany campus:

• Serves as home to the program assistant for Linn-Benton's Degree Partnership Program
• Provides a space for OSU advisors to come to campus to meet with LBCC students.
• Fall 2014, about 70 students meet with OSU academic advisors
• Winter 2015, about 70 students met with OSU academic advisors
New Advising Guides:

- AS degrees advising guides are being updated
- Creating a uniform look
- Reviewing with advisors to ensure the guides are current
- Guides will end with notes/information to help students stay on track with their OSU goals.
Treasure Valley CC will become the 16th Oregon Community College active with the Degree Partnership Program!
DPP BENEFITS TRANSFER STUDENTS, even if not located in the Corvallis area!

For example, students can lock in their catalog year and graduation requirements by taking one class at OSU as a DPP student.
DPP BENEFITS FOR TRANSFER STUDENTS:

- Take advantage of the services before physically being at OSU:
  - Receive OSU advising before moving to Corvallis!
  - Get on Family Housing waiting list!
  - Receive support from Academic Success Center
  - Gain access to OSU services like MyDegrees which can make the transition to OSU easier
  - Apply for departmental scholarships... and more!
OSU has a new Transfer Student Services Manager who would like to improve community college outreach! To discuss possibly community college advising or other related initiatives, contact:

New Oregon Tech Programs (2014-15 year):

- 40 bachelor and master degree programs
- Newest additions:
  - **Population Health Management** (Bachelor Degree)
  - **Medical Sociology** (Minor) taught at the Klamath Falls
  - **Applied Psychology** (Wilsonville and Klamath Falls)
  - Dual majors in **Optical Engineering and Systems Engineering & Technical Management** (Wilsonville)
Oregon Tech Population Health Management (PHM):

- Launched fall 2015
- Response to a major paradigm shift underway in healthcare reform:
  - From reactive care to comprehensive proactive care
  - First university in the state to launch a new program in what is called social medicine
  - PHM will help students understand the impact of social, cultural, economic, and environmental factors on healthcare systems and practices.
  - PHM will meet patients’ and clients’ holistic medical and social support needs
  - PHM graduates will be among the first in the state and country with this skillset.
14 Oregon Tech Teams Named as NAIA Scholar-Teams!

Oregon Tech had 14 teams honored as 2013-2014 Scholar-Teams, the most in school history.

- The Women’s Indoor Track team led the honored Oregon Tech teams with a 3.65 GPA
- Women’s Outdoor Track & Field team’s 3.50 GPA
- Women’s Basketball team was the defending Cascade Collegiate Conference Champion with a 3.49 GPA.
Oregon Tech now generates all of its electricity from renewable energy sources located on its Southern Oregon campus. It's believed this is the first time an entire higher education campus has accomplished the feat in the United States. Oregon Tech has long operated geothermal plants that generate heat for its buildings. By converting the plants to also generate electricity and completing a 2 Megawatt solar array, all of the university's energy needs are met on-site, making it a net-zero energy campus.
Oregon Tech Graduate Success

- **88 percent** either employed or enrolled in graduate school within six months after graduation
- Payscale.com noted that Oregon Tech has the **highest starting salary and mid-career salaries** of any university in Oregon
- Oregon Tech is ranked as having the **best return on investment** in the Pacific Northwest
- Oregon Tech is among the **top 6 percent of universities** in the nation
- In 2013, Oregon Tech earned the number 20 spot in AdvisorOne.com’s report on annualized return on investment
